

Channel 28 Morse App - Apple Watch Implementation

Rev 1.2
2nd April

IMPLEMENTING APPLE WATCH WITH CHANNEL 28 MORSE APP	
Item	Description
1	<p>Charge Apple watch and Pair to an iPhone</p> <p>For more detail see https://support.apple.com/en-gb/HT205189</p> <p>Currently the Apple watch can only be connected to an iPhone.</p> <p>Although multiple watches may be sync'ed to a single phone, only one watch can be active at one time, so it is recommended that each watch is paired with a single phone.</p>
2	<p>Download the Morse Service Call App to Phone</p> <p>Search App Store for "Morse Service Call"</p> <p>Latest Version is 1.2</p> <p>Install the App on the iPhone</p> 
3	<p>Install the Morse App on the Watch</p> <p>Open the Watch App and Install the Morse App to the Watch</p> 
4	<p>Open the Morse App on the Phone & Configure</p> <p>The Watch App receives the server settings from the iPhone App</p> <p>Set the server settings in the Window</p> <p>Name: This will show when calls are acknowledged Server: This is specific for your yacht - contact Channel 28</p> <p>If the settings are correct - the App will show a green signal </p> 
5	<p>Open the Watch App</p> <p>The Watch App will sync the server setting with the iPhone</p> <p>The system is ready to use - you can close the app by reverting to the main watch screen (digital crown)</p> 

HANDLING CALLS	
Item	Description
1	<p>If the iPhone App is open: Calls are sent via a local Wifi connection to the App (not via Internet)</p> <p>Calls do not come to Watch</p> <p>Calls can be Accepted within the App</p>
	
2	<p>If the Phone App is Closed Calls are sent via Apple Notifications to the Phone (via Internet)</p> <p>IMPORTANT: Calls will also be sent to the Watch if:</p> <ol style="list-style-type: none"> 1. The Morse Watch App is not open on the Watch 2. The iPhone is not in use 3. The Watch is being worn.
	 
3	<p>When a Call is received : Press on the Call Detail</p> <p>Any live calls are shown in orange</p> <p>Press on the orange call to accept</p> <p>When all calls are accepted the App will close.</p>
